**PRIOR COUNCIL ACTION:** May 27, 2004.

**BOARD AND COMMISSION ACTION:** Recommended by the Austin Airport Advisory Commission.

**PURCHASING:** N/A

**MBE / WBE:** 52.70% DBE subconsultant participation to date.

The purpose of this project is to provide a complete East Runway System Perimeter Road along the south end of Runway 17L/35R. Various considerations were evaluated that may impact the routing of the road, such as the landfills east of the runway, floodplain areas, navigational systems and other physical features or operational aspects of the airfield. The Consultant coordinated field-testing activities with the Air Force (currently responsible for the landfills) and the Texas Commission on Environmental Quality (TCEQ) in the vicinity of the landfills to provide pavement recommendations.

The selected consultant has completed the Preliminary Engineering Report phase of the project and we are returning to Council to request additional funding for design services.
